

Kicking off our new 'Transport' theme we have been looking at left and right directions. We used the interactive whiteboard where we had to use our super listening and writing skills as we moved the pen in the direction that was shouted out. We also watched and got active as we participated in a left & right movement song. During outdoor play this week we fed the birds. We had to break the rolls up into tiny tiny crumbs and then scattered them around. We made a bread trail and followed this on our way back to school.
