

Celebrating all things Chinese this week. We have had fun preparing and making our own Chinese New Year spring rolls and dips. After we tasted them we recorded our likes and dislikes on a chart. We watched and did some of our own Chinese ribbon dancing as well as moving our bodies in different ways to represent the animals in the Chinese zodiac. From practising our gross motor skills to tuning our fine motor skills as we folded paper to make fantastic dancing dragon puppets, Chinese mark making and adding wishes for the New Year to our wish tree.
