

Connecting and building on a large scale this week as we work as a team to build a secret hideaway. We switched off the lights and experimented with light sensory toys inside in the dark. Foot and hand printing for our all about me book. We measured our hands and feet using rulers and recorded this unique information. Out and about we were challenged to find squares in our local environment. We had lots of fun on the beach enjoying lots of freedom to explore and observe some jelly fish as well as finding heavy rocks to make the biggest splash!
