

Painting up perfect squares in the style of Dutch artist Piet Mondrain. We had to identify the squares and paint them using the 3 primary colours of red, yellow & blue. Our challenge was not to have two squares of the same colour next to each other. We displayed our fabulous construction skills as we built a den in the forest. This soon turned into a boat and we used our super imaginations to catch leaf fish that we then just had to cook on our camp fire. Building and designing an enclosure for sand hoppers as well as investigating and exploring our beach finds along the shore road. Putting our gross motor skills to the test with large movements using our arms in the shaving foam as we mark make to the beat of the music
