

Winter beach fun when out and about as well as some muddy puddle painting. Creating a interactive model for our 5 a day rhyme this week and working on our core skills during hall time activities as we push and pull ourselves along the bench. Spaghetti fun in the messy area. Children orchestrated their own activity by hanging it over the black to cut and trim. They then threaded cereal hoops to make a bird feeder to hang outside. Lots of fun number work as the played a count the meatballs in your spaghetti. They had to use their fine motor skills to roll playdough meatballs and use the pincers to dish out their meal.
