

Lots of stamping activities this week using the stamps and ink pads. We were challenged to stamp along the lines of the post box, envelope and post van. We attached stamps to our letters in our role play area and weighed these before posting in our post box for collection. We also stamped around our profile picture and look at how amazing it turned out. It looks just like a real stamp.

A special visitor came to test our eyes to make sure they are healthy. We worked on following a pattern and using super scissor skills
