

We were very lucky to have local fisherman Mr. Paterson visit this week. He showed us lots of photos and talked about the history of our local fishing fleet. He demonstrated how to mend nets, splice ropes and tie knots. We even got to see a real life lobster!

A teamwork challenge to pull our boats across the river was so much fun. When your opponents boat reached your side we had to throw the dice and remove that amount of fish and when your own boat came back, throw the dice and add that amount to your catch then to tally up and compare who had the most. After our activity we had a little explore in and along the river bank.

At the kids request with a celebration of the end of our topic by having our very own Healthy Spa day! We made healthy seaweed smoothies, ticked off our treatments then relaxed as we listened to beautiful soothing music chilling with our seaweed and cucumber masks. It was super fun peeling them off!
