

Welcome back after the mid term break. Our new topic kicked off this week as we learn all about dinosaurs! We enjoyed some dinosaur gloop during messy play as we created a dinosaur swamp. We played some dinosaur table top games where we waited patiently for our turn and listened to a dinosaur story for our daily cosmic kids yoga session. Over the week we looked at our collection of fossils using some magnifying glasses and we were able to draw and record what we saw with great precision and detail. This week love was in the air as we made someone special a beautiful Valentines day card. We enjoyed painting outside in the garden just as much as we enjoyed throwing water sponges to wipe and clear away. We took a walk to the park and were very nurturing and caring as we petted the horses in the adjacent field.
